8. Entry Barriers in Fisheries and Fishing Communities
9. Challenges in Fisheries and Rural Fishing Communities

1. Fisheries and Fisheries Labor

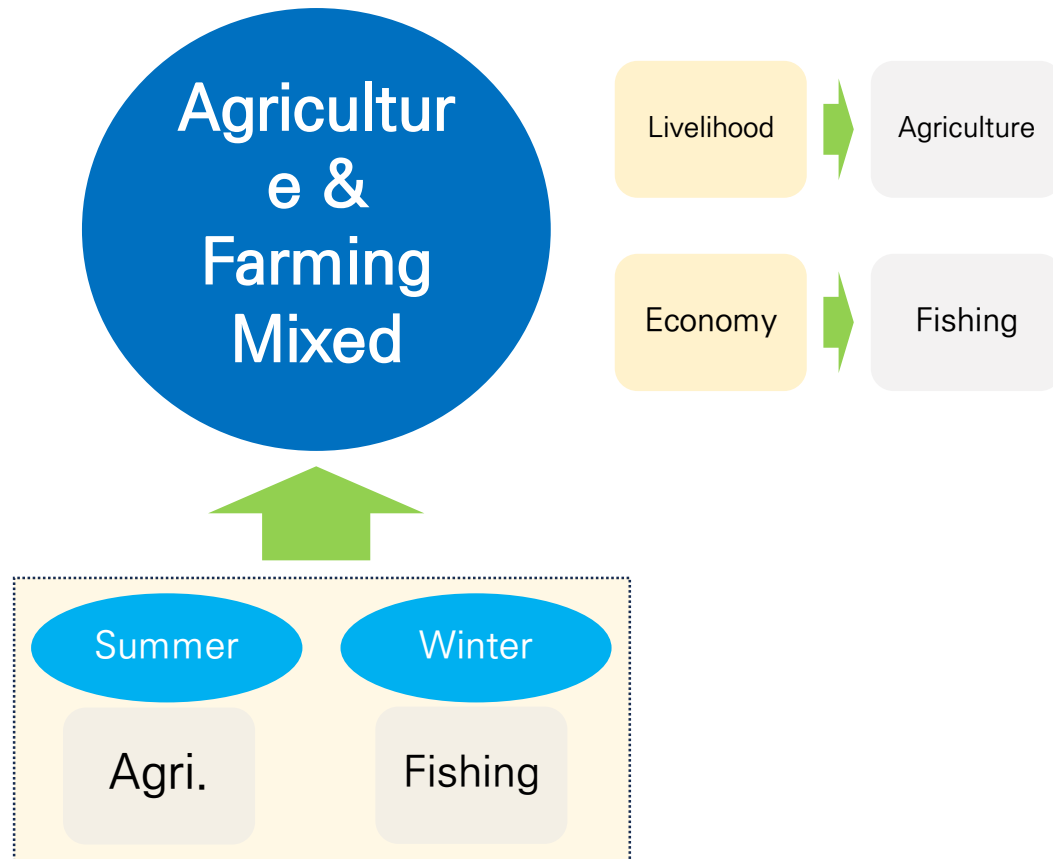

2. Meaning of Rural Fishing Communities

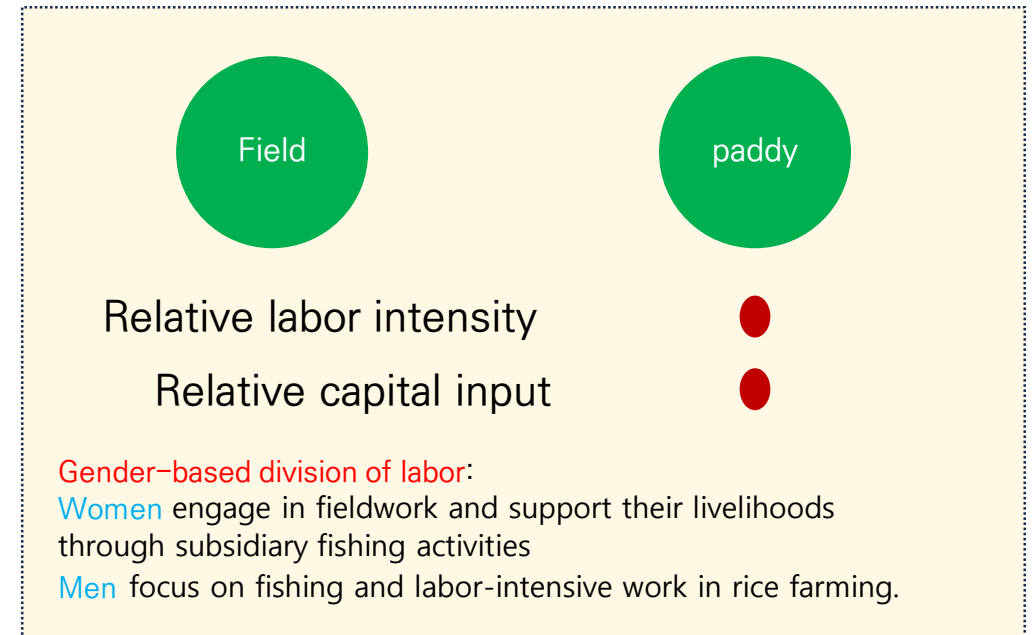

A village where people who make a living through fishing gather to live.

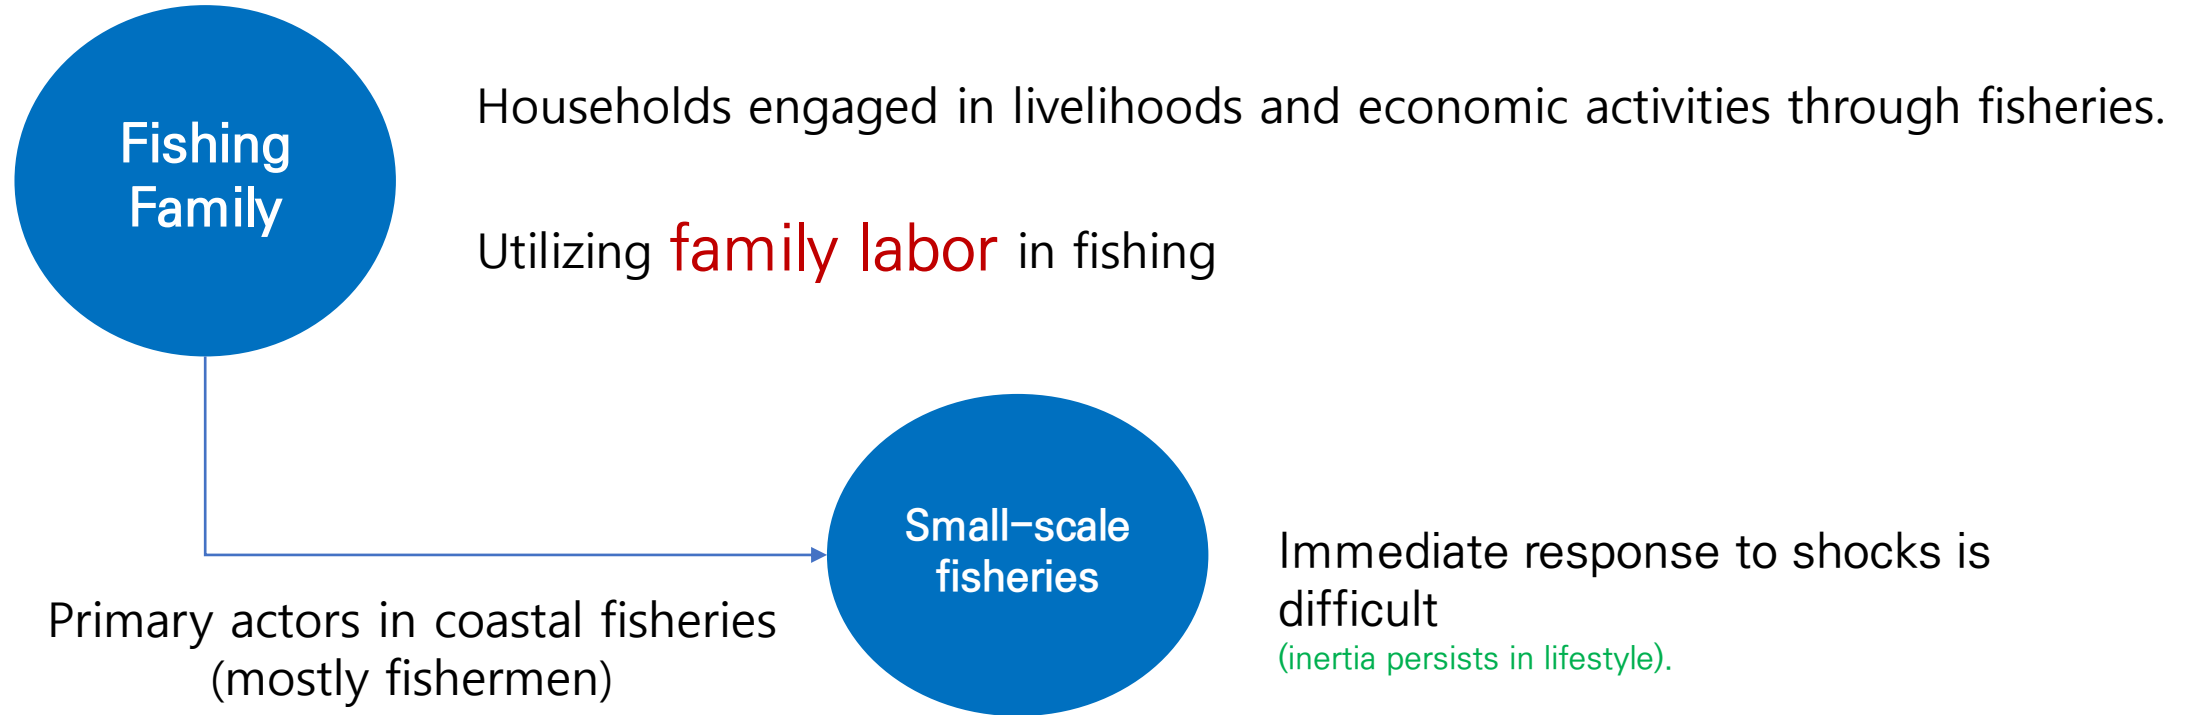

3. Characteristics of Fisheries and Rural Fishing Communities in South Korea

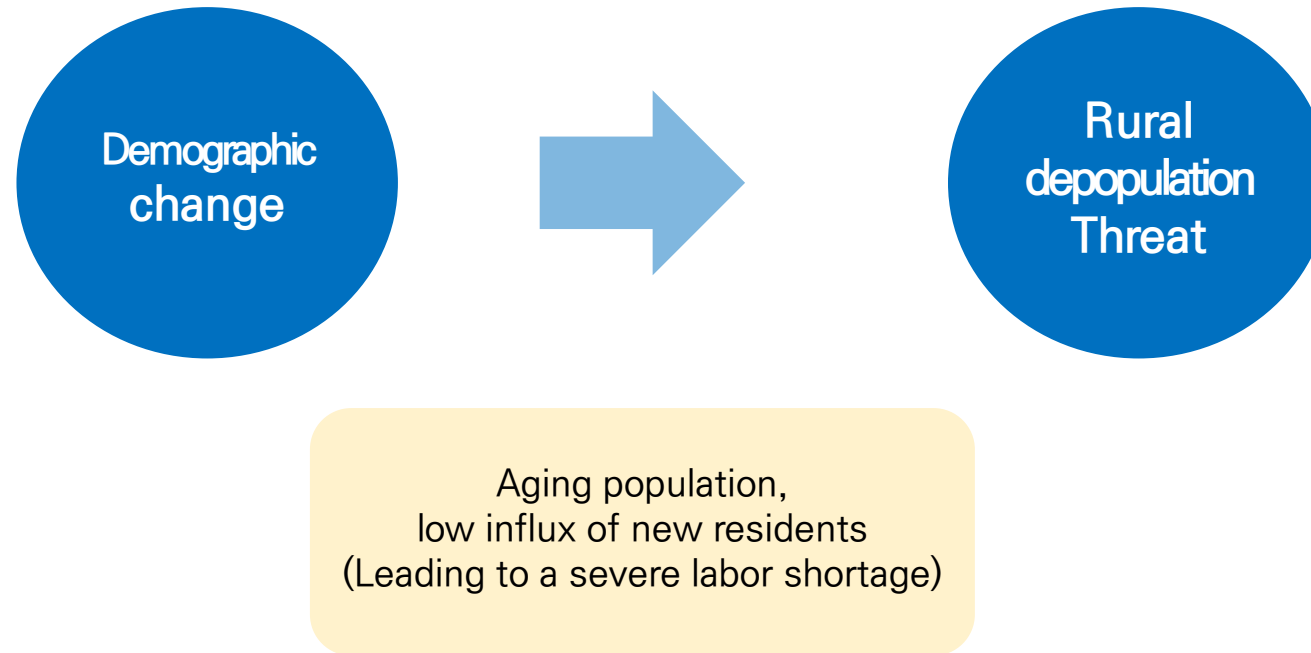

predominantly **fieldwork**,
many small-scale paddy farming operations

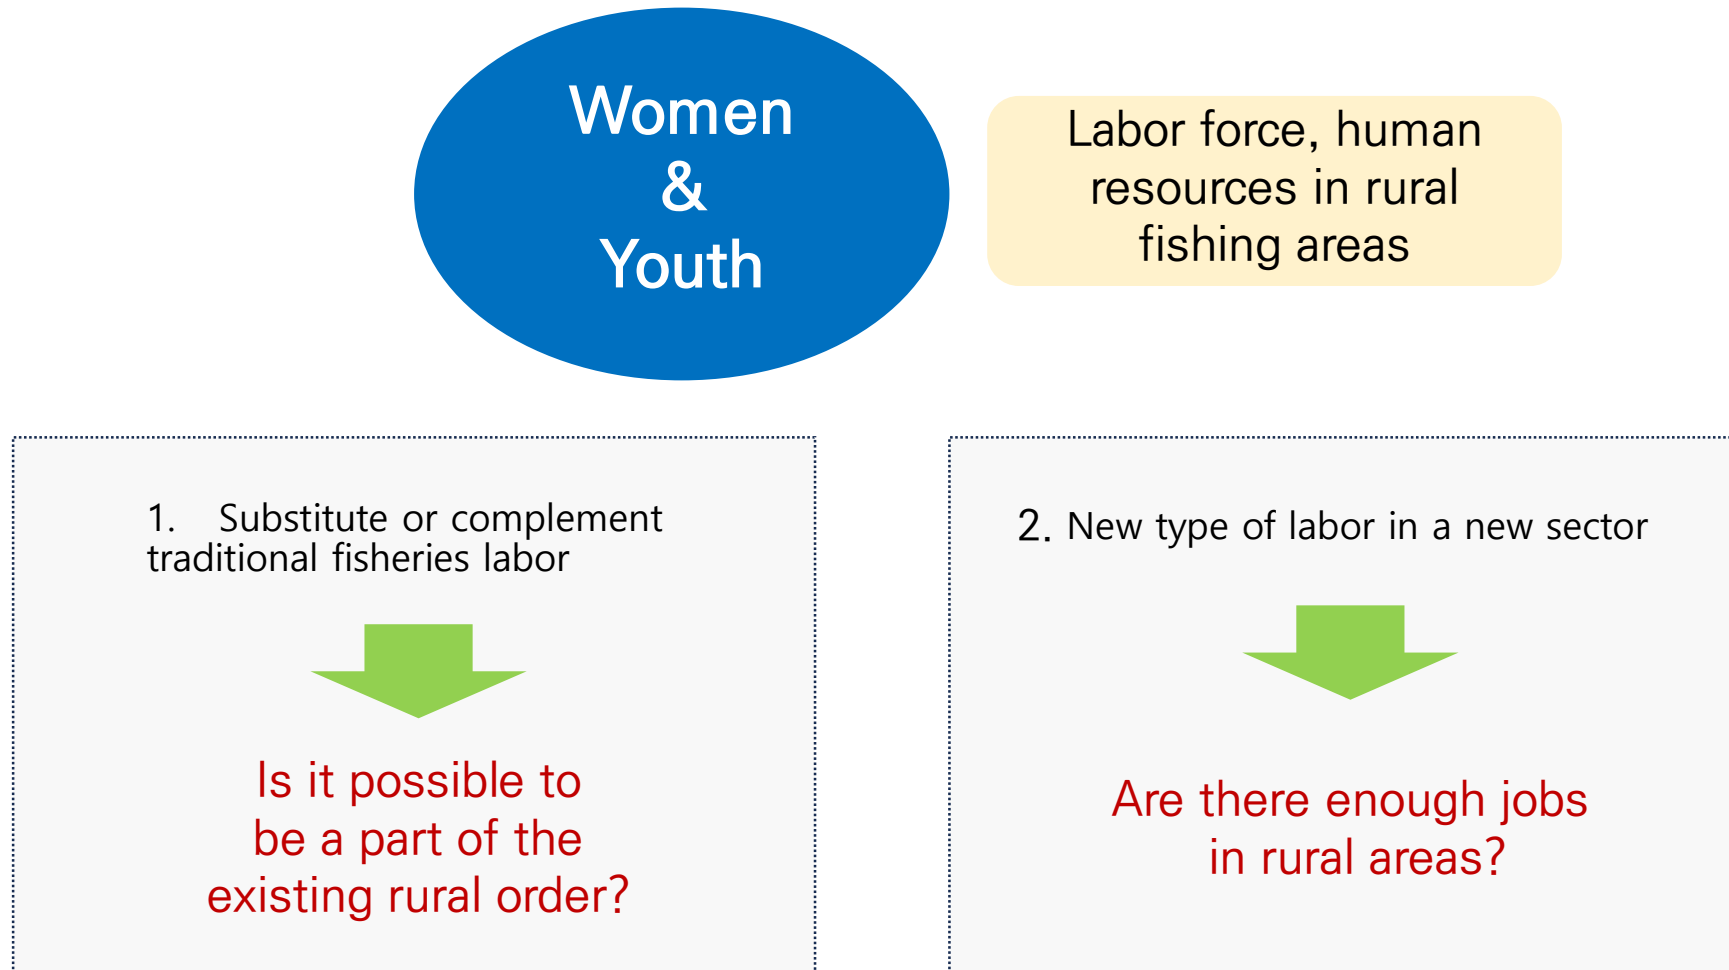

4. Fishermen and Fishing Families in South Korea

5. Threats Faced by Rural Fishing Communities

6. The Nature of Women and Youth Labor

7. The Reality of Women and Youth Labor

Possible to engage in traditional fisheries

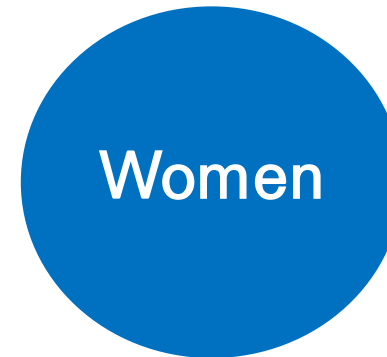

However, facing **high entry barriers** in fisheries

(learning fishing skills, acquiring fishing vessels and equipment, securing fishing grounds, etc)

Participation or entrepreneurship in rural businesses

However, **entry barriers** still exist

(business networks, workforce, fishing grounds, living facilities, etc.)

Skilled workers in fisheries but **undervalued**, **lacking self-recognition** as 'fishermen'

The necessity and participation in rural businesses are high, but there is a lack of related knowledge, insufficient intermediate support organizations, and inadequate research in the field.

8. Entry Barriers in Fisheries and Fishing Communities

Entry barrier

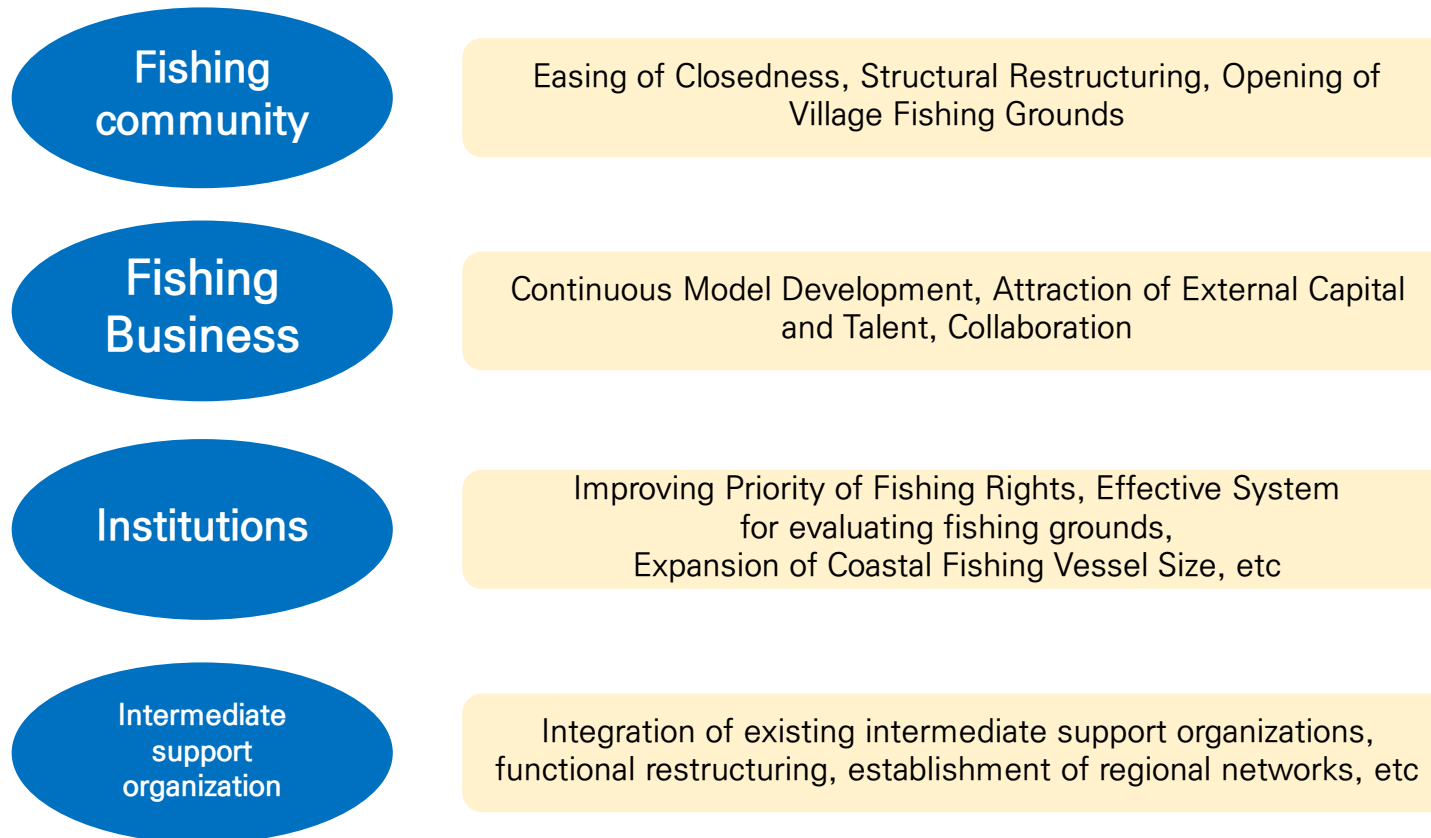

in Fishing sector

- Acquiring fishing skills,
- Purchasing fishing vessels and equipment,
- Securing fishing grounds (including fishing rights),
- Securing living facilities such as housing.

in Fishing village

- Established fishermen bothering newcomers,
- Closeness within the rural and fisheries community and organizations,
- Regulations within the village
- Age-based hierarchical structure.

9. Challenges in Fisheries and Rural Fishing Communities
